Robbery in Marion, O., Faked to Cover up Theft

BRITISH BALK AT
REPARATION PLAN
OF CONFERENCECOUNCIL OPTIMISTIC UN-
TIL LLOYD GEORGE DE-
CLARES PROJECT UN-
SATISFACTORY.

SEEK SOLUTION

Premiers Meet, Efforts at Re-
conciliation Are
Pressed.

THE ASSOCIATED PRESS.

Paris, Jan. 28.—The divergence of views of the members of the allied supreme council regarding German reparations caused an interruption of the conference today, and in some quarters it is regarded as in danger of breaking up.

The optimistic feeling of this forenoon, when the members of the special reparations committee, appointed yesterday, expressed pleasure with their progress, was soon dissipated when the British prime minister, Mr. Lloyd George, found the projects under discussion by the committee were entirely unsatisfactory to him. He sent at once for M. Briand and conferred with him for an hour and a half. The Belgian representatives were to meet Mr. Lloyd George later regarding their proposals.

The special committee on reparations is continuing its efforts to reconcile the different viewpoints, while M. Briand and Lloyd George will try to find a solution in private conversations.

The discordant views on the reparations question, especially those of France and Great Britain, which were presented yesterday, had brought about a virtual deadlock this morning.

It was indicated by Premier Lloyd George yesterday that the whole reparations question could not be solved at the present meeting. All that could be accomplished, he said, would be the setting of the amount of Germany's debt and the way it should be paid. Later, he asserted, allied and German delegates would meet for a final discussion of the settlement.

French Are Opposed.

M. Briand, French minister, and M. Briand, were not consulted by the British prime minister's arguments although the views of Mr. Lloyd George appeared favored by the Italian and Belgian representatives. M. Briand declared after yesterday's meeting that the reparations question must be settled "once and for all before Saturday night" and indicated he would not retreat from his stand that the total amount of German indemnities should not be fixed and that payment should be made under the annuity plan.

Kidnappers Ask \$50,000
for Mrs. Witherell

Los Angeles, Calif., Jan. 28.—A secret demand for a ransom for Mrs. Clara Witherell, who was kidnapped Wednesday, was given out today by police. The note said: "Don't worry until you hear further from me. Have \$20,000 cash ready for us as you will hear from me again soon. Don't worry, my police or detective or all will be lost."

Mrs. Witherell, wife of O. S. Witherell, president of a loan and investment company, is said to have been lured away from her home by a man who told her a person injured in an automobile accident asked that she be summoned.

Bergdoll Applies for
German Citizenship

Karlsruhe, Germany, Jan. 28.—The attempted abduction of Grover Cleveland Bergdoll, the American draft evader, and Isaac Stecher, his chauffeur, was made the subject of an interpellation in the Baden diet. Premier Reuter informed the deputies both men had applied for German citizenship and their petition had been granted.

AT WASHINGTON

Secretary Coolidge assured Senator Clark that the state department would not give its approval to the proposed treaty between the U. S. and Japan until opportunity had been afforded for arguments.

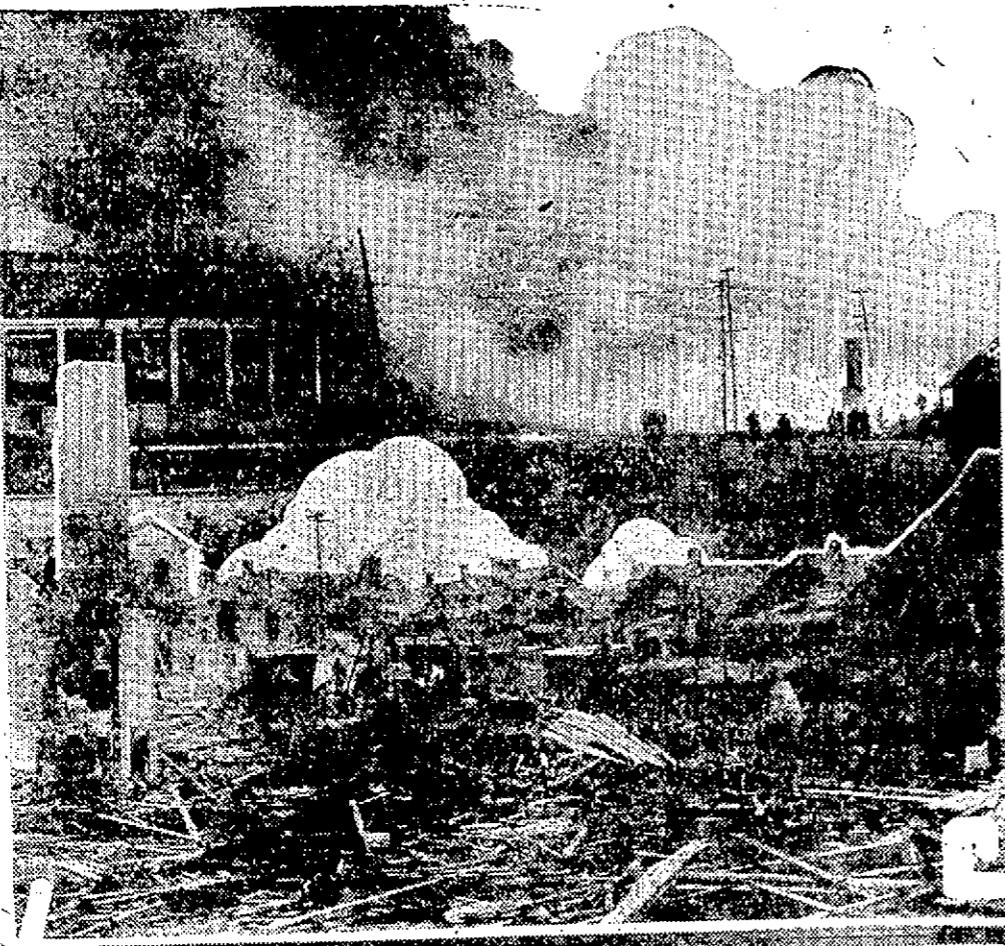

At the suggestion of Harding, Representative Anthony, of Kansas, said provision has been made in the annual appropriation bill for an army of 500,000 men.

A bill has been drawn up a proposal to go the way for appointment of an Ambassador to Russia and struck out of the diplomatic appropriation bill a provision for raising the American legation at Peking to an embassy.

Stick to It

A big enough campaign of classified advertising is always wise and never costs more than you would be willing to pay for the results you are seeking. If you have prepared to sell or rent, advertise it, persistently until you get your results. Persistence in classified advertising is a relative thing. It rarely means that you must keep it for as long period. It just means sticking to your niche until your quest is successful. And that policy always pays. When your ads go to the "want ad girl" it either phone.

Scene of Memphis Fire

View of the ruins of tenement houses wrecked by the explosion and a glimpse of the fire at its height.

A whole block of negro tenement houses were leveled to the ground, at least 15 negroes killed and 50 injured when a gasoline tank car exploded at North Memphis. Tamm. The blast went off at 7:10 a. m. The man had gone to work from the tenement houses, but the women and children were pinned beneath the wreckage of their homes as the cheaply built two-story buildings went to the ground like so much pasteboard.

"I think you will not be surprised with any higher rates," said John H. Hanson. "The railroads must depend upon a greater volume of business."

Commenting upon Janesville he said:

"Your progress is sure and we want to hear from you on every proposition where you think we can be helpful."

S. O. S. Fund is Growing
Every Needy Case in City
May Now Be Cared For

Forty dollars of the S. O. S. fund for the unemployed was turned over to the American Legion for use in caring for the soldiers here.

The city is being combed by the several organizations for persons needing relief so that no needy person may be without aid. As usual there are many cases of people really in need it is not always easy to locate them but it is never hard to find the professional beggar. The families were investigated yesterday and found to be of the professional class of workers who grab every opportunity to feed free and never are known to work.

No Need to Beg.

Several cases of beggars in the residence districts were reported to the police yesterday and this morning. There is no occasion for this and in all cases the solicitors for aid should be directed to the Red Cross, the American Legion, to the First Aid Society, or to the Gazette. All persons knowing of genuine cases of distress should report to the Gazette and they will be turned over to the proper committees for attention.

Funds Counting In.

Additional funds came to the Gazette office this morning making a total of \$149 for relief. The fund will be closed when it reaches \$500. If conditions do not change for several months of course, the money will be needed perhaps more than in in hand and the worst time

will probably be about March so that all the machinery of the moment should be kept in operation through the winter.

United Relief Bureau.

With the completion of the organization of the United Relief Bureau there will be a regular business of caring for the unemployed and the suffering of some of the railway's bridges in this vicinity.

"There is nothing so critical in this country today as the situation of the railroads," President Finley as-

serted with emphasis. "The trouble of the roads is to get new money, but where are we to get it?"

Lost Money in 1920.

Illustrating with statistics that the Northwestern lines did not make expenses in 1920 but paid out \$100,000 to take in each \$100 of income, he declared that the public is being given an erroneous impression that the government has taken upon itself to guarantee the railroads a definite income. Moreover, he said, the

FORD PLANT TO TAKE
BACK SOME MEN

Detroit, Jan. 28.—A limited number of employees will return to work in some departments of the Ford Motor company plant here January 31, it was announced today. No announcement was made as to the probable date of a return to normal operation. The plant has been closed since December 25.

State School Fight
Comes to Head With
Bill Given Assembly

BY ASSOCIATED PRESS.

Madison, Jan. 28.—Bill to abolish the state board of education and concentrate educational activities in the office of C. P. Cary, superintendent of public instruction, was introduced in the assembly this morning by William Olson, State Senator. Cary, who plans to candidate to succeed himself at the April election, is reported to be the author of the measure. The bill, according to assembly leaders, is the opening gun in the fight for control of Wisconsin's educational system.

Cary Opposes Board.

Cary, who has served as superintendent for 18 years, was bitterly opposed to the establishment of the state board of education during the Philip regime, because the state board, with the exception of the superintendent, took from the superintendent's office most of the power he previously had.

E. A. Fink, secretary of the state board of education, has stated the office of state superintendent should be confined to the administration of the state's elementary schools, and should be removed from politics by making the superintendent an appointive official.

Free Text Book Fight Revived.

The free text book fight had been revived with the introduction by Assemblyman Erie H. Johnson, a bill providing for purchase by cities, villages and townships of all text books used in the public graded schools.

The first test vote which will show the relative strength of the progressive and conservative factions in the assembly week, when selection of an official state paper is taken up. The bills are pending, one seeking to name the Capital Times and the other the State Journal, both of Madison.

In the senate the test vote is expected to be Senator Deinhardt's joint resolution memorializing congress and the president in favor of disarmament and the recall of American troops from Europe and Asia. The resolution was reported out by the senate state affairs committee yesterday without recommendation. Senator Mulberger dissenting.

To Rush Work.

The assembly, without debate unanimously adopted the senate joint resolution calling for a change in rules making daily sessions of the legislature, except on alternate weeks, compulsory.

Petitions from societies and citizens throughout the state asking the legislature to strengthen the prohibition enforcement law were read in the assembly and referred to the committee on state affairs.

Free Text Book Fight Revived.

The free text book fight had also been revived with the introduction by Assemblyman Erie H. Johnson, a bill providing for purchase by cities, villages and townships of all text books

FINLEY IN TALK

SAYS CHANGE IS NEEDED IF ROADS
ARE TO IMPROVE—MAYOR
AND SAMSON HEAD
SPEAK.

Unless some method is devised to enable the railroads of the United States to earn a greater return upon their investment, they are headed toward a worse condition than the lines of England. This statement was made by W. H. Finley, president of the Chicago & North Western railroad, at a spontaneous following luncheon at the Hotel Elkhorn, in which he and ten other officials of his company, 200 members of the Chamber of Commerce at the Y. M. C. A. here Thursday night. It was the second visit of the head of a railroad to Janesville.

Optimistic About Janesville.

Then turning to make a few remarks about this city he urged that Janesville should plan to grow along

Youth Starts Suit in U. S.
Court for \$25,000 Damage
Suffered in Auto Accident

Elmer Doyell, residing near Evansville, is defendant in a \$25,000 damage suit filed in the United States district court in Madison by William F. Muetz, Evansville, as guardian of an infant son of the same name. The complaint was filed by Charles Engle, Evansville attorney.

The case is to be submitted to the federal court by virtue of the fact the plaintiff is a resident of Iowa, consequently making the suit of inter-state character.

Elmer Doyell, suit.

The accident out of which the suit was filed happened near Evansville on May 23, 1920. Muetz, Jr., was riding on a motorcycle with side car. The side car was occupied by Alolis H. Quirk, who afterwards married the plaintiff. It is alleged that when two miles north of Evansville the motorcycle was struck by an automobile driven by Elmer Doyell. The complaint charges that the auto was

driven at an unlawful rate of speed in a negligent manner and on the wrong side of the highway.

The motorcycle was over turned and Muetz severely injured, suffering such injuries to his left leg as to require amputation at the point between the knee and the ankle. The complainant said that four amputations were necessary, the second below the knee because of the lacerations refusing to heal properly.

Cut Above Knee.

In August, 1920, the third operation was performed and the stumps of the leg cut off near the knee. Further complications developed, it is stated, and the leg cut four inches above the knee. Muetz is reported to be in a hospital for a period of six months.

Among the "irreparable injuries" listed is the fact the plaintiff is a cripple for life, suffering excessive pain and having to pay a large medical bill.

Hip Pocket of all Men Except
Indians Have Death Blow if
Bill Proposed at Madison

BY ASSOCIATED PRESS.

J. C. Strickler, accused of having moonshine in soft drink parlor.

EDGERTON MAN IS TRIED BY LANDIS

Strickler Accused of Having Moonshine in Soft Drink Parlor.

EDGERTON, Jan. 28.—Hip pockets of American men, except Indians, have a death blow if they are found in a restaurant to be unseemly, according to the Wisconsin legislature, asking congress to amend the federal prohibition act so that citizens will not be able to "wrap themselves around too much contraband percentage."

The resolution, prepared by Assemblyman Frank H. Hanson, would have Wisconsin ask congress to amend the prohibition act to read as follows:

"Hip pockets in restaurants are hereby and forever abolished, so far as any person other than an Indian, they having been allowed to transport a bottle of liquor on a motorcycle with side car, the side car occupied by him and ten other officials of his company, 200 members of the Chamber of Commerce at the Y. M. C. A. here."

Commenting upon Janesville he said:

"Your progress is sure and we want to hear from you on every proposition where you think we can be helpful."

slow but sure lines and avoid mush-boozing; that the foundation of its success is in its prosperous agricultural background; and that to him the continual growth of the city seems assured. He spoke with a feeling of personal interest in the past when a construction engineer for the railroad he had charge of the erection of some of the railway's bridges in this vicinity.

"There is nothing so critical in this country today as the situation of the railroads," President Finley as-

serted with emphasis. "The trouble of the roads is to get new money, but where are we to get it?"

Lost Money in 1920.

Illustrating with statistics that the Northwestern lines did not make expenses in 1920 but paid out \$100,000 to take in each \$100 of income, he declared that the public is being given an erroneous impression that the government has taken upon itself to guarantee the railroads a definite income. Moreover, he said, the

Bedridden Man Dies in
Fire, Babies Hurt in Drop

Chicago, Jan. 28.—A bedridden man was found dead to death 5 persons were injured, including two babies who were dropped from a third story window, and a dozen others were rescued when fire attacked a boarding house at Garfield avenue and Sedgwick street early today. Alton Bryant, 28, nephew of the owner of the house was too weak from illness to get out of bed and escape. Miss Katherine Beck, 32, jumped from a third story window and was severely hurt.

Judge Landis brought out testimony showing that Strickler permitted a poker game to be in his place in which two dollars was the limit of a bet.

"It is quite apparent to the court what moonshine was doing in a place where two dollar limit poker is played," said Judge Landis. "That is a professional game."

Judge Landis reserved his decision on the motion to quash the indictment until further investigation of the boy and the facts in the case.

Mrs. Russell Werry accompanied her mother, Mrs. M. N. Holden, to Janesville yesterday, where the latter underwent an operation on her throat. They expect to return today.

C. J. Ellis, Stoughton, is visiting his sister, Mrs. Harriet Wilder, on Liberty street.

J. K. Arno, Janesville, was a business visitor here yesterday.

Mr. and Mrs. Charles Seegmire were business visitors in Janesville today.

EAGLES' ORGANIZER PLEADS FOR BIGGER U. S. FOREIGN TRADE

Pleading for a re-establishment of a large foreign trade for the United States and declaring that this country manufactures and produces in 8 months what it takes almost 12 months to consume, former State Senator Robert E. Proctor, South Bend, addressed 100 people at an open meeting of the "Eagles" lodge at this city hall last night. He claimed that this is the reason for the warehouses being filled at the present time. He was introduced by Mayor M. C. Smith.

"Cancelling orders means slackening of production," he said, "and slackening of production means a laying off of labor. So we have 4,000 men out of work and greatly reduced wages for the working man. A wage situation which will last even after the present depression is reduced, since we shall still in our manufacturing be competing with other labor markets of the world, especially western Europe."

"The economic condition of Europe and the failure of our manufacturers and farmers to dispose of their goods has so disarranged the world that we are absolutely certain to have a period of business depression that can not be substantially altered for months to come."

2 WOMEN SPEAKERS SHOW VALUE OF MILK

Lectures by two women featured the meeting held in the school house at El Prairie last night while more than 200 people attended.

Miss Anna Luedtke, county nurse, spoke on the need of increasing the use of milk among the children residing in the country. She also explained the work of a county nurse and the suggestions offered for the improvement of health conditions.

Miss Elizabeth Miller related the use of milk and milk products.

Consolidation of schools for the improvement of buildings and school organization was outlined by O. D. Anisdel, superintendent of schools.

E. P. Coon, of Milton Junction, gave a short talk on the value of milk products. R. T. Glasser, county agent, also spoke. H. K. Overton led in the singing exercises.

There is to be a meeting in the Legion hall tonight.

URGES LONG TERMS TO PREVENT THEFTS

Hazen Rice and Russell Weirick were taken to Green Bay this morning to start their sentences inflicted on their plea of guilty to the charge of stealing an automobile. Rice was sentenced to 18 months and Weirick for four years by Judge John Clark in the Beloit municipal court.

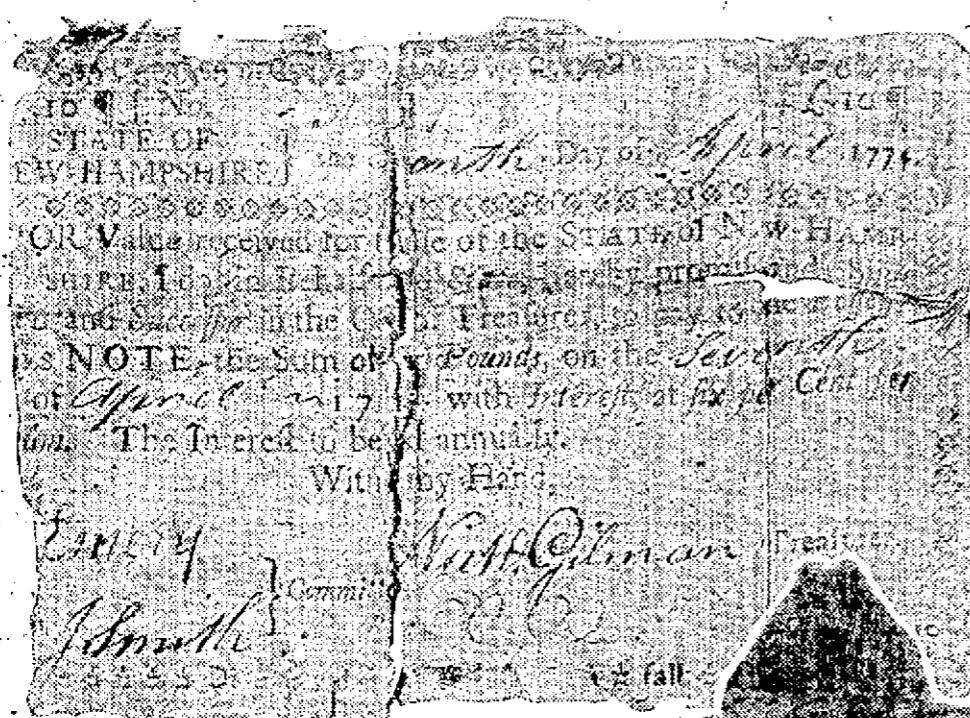

District Attorney S. G. Dunwiddie urged heavy penalties for both of the Sheboygan youths to stop the thefts of automobiles in Rock county.

WILL MARRIAGE TO BARON FINISH HER ROMANTIC CAREER?

Miss Agatha Reisenstein
You would never guess that Agatha Reisenstein of Boston, Mass., a little blue-eyed blond, is a horse-breaker, a snubber of crown-princes, a movie star and an alleged Russian spy. She is not getting ready to marry a baron with a career as romantic as her own. The lucky man is Baron Verner Rosenblatt, a childhood companion, immensely wealthy, whose career has been as thrilling as his fiancee's. Both were born in Denmark.

STATE ASKED TO PAY \$210,000 FOR \$50 NOTE ISSUED IN 1774

Photographic reproduction of the \$50 note which William F. Morgan says is worth \$210,000, and Morgan.

The \$50 note, reproduced above, was issued in 1774 by the state of New Hampshire to John Winslow in return for a loan. Now Winslow's descendant, William F. Morgan, has asked the state of New Hampshire to pay him \$210,000, this being the amount of the original note plus six per cent compounded annually. The state

10 Prescriptions Stolen from Doctor

Ten whiskey prescription blanks were stolen from a doctor's office in Beloit last night according to information received today at police headquarters here.

The thief should now be able to gorge himself on the whiskey without even taking the trouble to feign a cold, sore throat or hangover.

KINNIE IS ORDERED TO GET WORK QUICK

Carl Kinnie must get a job, pay at least \$10 a week to his wife and two children, and keep away from other women.

These were the instructions issued today by Judge H. L. Maxfield when he was arraigned on a charge of wife desertion and non-support. The case was adjourned two weeks to give him time to get work. E. H. Peterson appeared for him and Dist. Atty. S. G. Dunwiddie for the state.

Kinnie was arrested after being marched to the police station by his wife, who had seen him on the street with a sunographer.

UNIQUE BRIDGERS ARE GIVEN BANQUET

Lakota bridge wals, players attended a banquet given for them at the card experts' Unique club in the Lakota Cafe, South Main street, last night. Lakota were defeated in two bridge games and in the third one played after the supper last night the Unique club added to its laurels. Twenty-four attended.

BANK HERE ACTS AGAINST LAND MEN

Frank Sterk, infant son of Mr. and Mrs. George Sterk, in North Washington street, died Thursday afternoon. Besides his parents, he leaves to mourn his death several brothers and sisters. They are George, Peter, John, Mary, Catherine, Joseph, Rudolph, Michael, and Anton. The funeral was held at 2 o'clock this afternoon from the home, Rev. Father Charles M. Olson officiating. Interment was in Mt. Olivet cemetery.

John Waugh The funeral of John Waugh, town of Bradford, will be held at 8 o'clock Saturday morning from the home and at 10 o'clock from St. Mary's church. Interment will be in Mt. Olivet cemetery.

SPECIAL NOTICE
This morning we received 50 more Women's Pure Genuine Leather Hand Bags, \$7.50 and \$8.00 kinds, on sale Saturday \$8.19. Main floor.

J. M. BOSTWICK & SONS.

A two weeks' adjournment was agreed upon by attorneys in the case of A. W. Bandill vs. Modern House Corporation, listed for trial in municipal court today.

Studebaker

THE NEW LIGHT-SIX

ORIGINAL COST

In making your original investment in this car, you receive the benefit of the manufacturing savings estimated at 20% to 25%, made possible by complete manufacture in the new modern \$20,000,000 Studebaker plants at South Bend, Indiana, because—

- the price includes but one manufacturing profit on castings, forgings, stampings, motor, axles, transmission, frame, body, top, etc.
- the amount of overhead expenses included in the price is very small.
- excess weight is eliminated without sacrifice of durability or quality. The shipping weight of the car, 2500 pounds, is distributed equally over the four wheels.

OPERATING SAVINGS

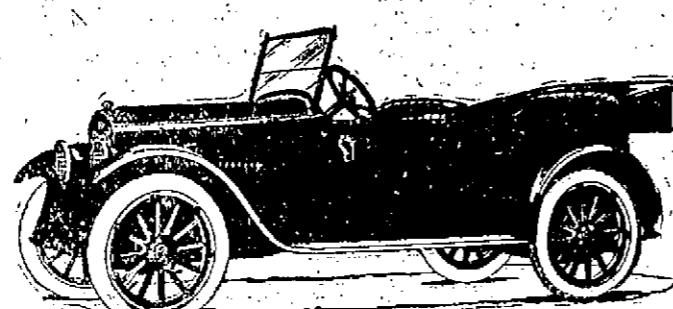

In operating this car, you receive the benefit of the economic advantages arising from its superb design, skillful manufacture, excess safety factors, and high quality, because—

- it will go from 12 to 15 thousand miles on the standard 32 x 4 cord tires.
- it will go from 18 to 22 miles on a gallon of gasoline.
- it will render from 8 to 10 years of satisfactory service.

Fordson

TRADE MARK

Announcement!

Mr. Edsel B. Ford, President of the Ford Motor Company, gives out the following statement:

"The price of the FORDSON Tractor has been reduced from \$820.00 to \$652.00, effective immediately. This means delivered on your farm anywhere in Rock County.

"This price change has been made possible through lower costs of materials and the fact that we are now located in our new Tractor Plant with greatly increased economic manufacturing facilities in immediate connection with our foundry and machine shops and large blast furnaces where iron is poured directly from the ore, giving us maximum efficiency with the power to reduce cost of production, and down comes the price in line with our policy to market our products at the lowest possible figure without in any way affecting our high standard of quality.

"We are particularly pleased in being able to bring about this big reduction in price at this time, because the farmer needs all the help we can give him and this big cut in price will be the means of placing a valuable power unit within the reach of practically every one of them, not to mention industrial and commercial concerns which likewise have benefitted through its use and are already realizing, to a much greater extent, its value as a power and hauling unit. But particularly has the FORDSON Tractor proved a most valuable factor in the saving of farm labor, at the same time increasing the per acre crop yield as well as making possible a utilization of previously uncultivated land, to say nothing of removing no end of drudgery.

"There is no question that the use of machine power on the farm is the greatest advancement made in the development of agriculture, not only in money saving and money making results, as well as raising the standards of living on the farm to a much higher level, but because of its proved value in making every type of land more productive, and consequently our desire to place the FORDSON within the reach of all.

"**THERE IS NO CHANGE IN THE PRESENT FORD CAR AND TRUCK PRICES**, which are already at the lowest possible figure, and now with rock bottom reached on the tractor price, a further reduction in price of either the car, truck or tractor is out of the question; in fact, the big price cuts have been made in anticipation of continuous maximum production and increases may be necessary before long if a large volume of new business is not obtained. Therefore, present prices of Ford products cannot be guaranteed against possible increases."

Ask for the book "The Fordson at Work," which will be supplied free of cost. Let us demonstrate the value of the Fordson on your farm, in your factory, lumber yard, coal yard, or in any general hauling or power work you have to do and let us have your order for a Fordson. Remember, there are no territory restrictions. I can serve you regardless of where you live. I solicit your order, and will be pleased to call or have you call and give you further information and render any service possible.

SATURDAY, JAN. 29.

Afternoon—
Women's History class—Library hall.

Bridge club—Mrs. Thomas Nolan, Lincoln street.

Bridge club—Mrs. W. T. Tallman.

Miss Drummond Engaged—A pretty announcement party was given Thursday evening by Mrs. D. J. Drummond at her residence, 333 North High street, at which time the engagement of her sister-in-law, Miss Ella Drummond, to George H. Drummond was announced.

The guests were members of the Planer Club of Eight, with Mrs. Herbert and Miss Daisy Chapin, Beloit, as out-of-town attendants. Dinner was served at 7 o'clock at a table decorated with red favors. Hearts made place cards and nut baskets made the centerpiece of the table was a large basket of roses from which ribbons, attached to hearts bearing the names of the engaged couple, were pulled. Miss Drummond's ribbon contained this ring.

Bridge was played and Miss Gertrude Promo took the prize.

200 at Installation—Two hundred Royal Neighbors and their husbands, Merton Wood, and their wives, and their installation ceremonies, as well as the installation ceremonies of Triumph camp, Royal Neighbors of America, held last evening in the Elks' club rooms. Mrs. Eva Childs, supreme oracle, was installing officer, assisted by Gladys Drummond as ceremonial marshal, and the following as escorts: Anna Homberger, Iva Downs, Elizabeth Murray, Lettie Carona, Louise Myers, and Anna.

Officers installed were: Rose Ash, president; Lucy Wurms, vice president; Ella Morse, past oracle; Mary Canfield, chancellor; Delta Pollock, pro temp; Allie Murdoch, recorder; Katherine Parker, receiver; Cora Cobb, marshal; Anna Dickerson, assistant marshal; Belli Sherwood, interim sentinel; Edith Greenway, outer sentinel. All were installed members for three years. Nellie Hagen, Mary Celeste, Laura Maltzer, Harriet Brown and Pearl Parish, graces. Dancing was enjoyed after the ceremonies until a late hour.

Juniors Have Program—Africa, its geography, people, and missionaries, was studied at the second meeting of the Junior Endeavor of the Presbyterian church. Ellen McIvor read a paper on Africa, and other members supplemented what they had looked up on the country during the week. Miss Isabel Pember, representing the Congregational Juniors, was a visitor.

Back dues amounting to \$1.65 were collected and given to the China relief fund.

Way to Speak at Club—Prof. R. B. Way, Beloit college, will give the 15th lecture of his course at 2 o'clock Saturday afternoon at Library hall before the Women's History class. "The United States in World Politics" will be the subject.

Clinton Editor in South—Mr. and Mrs. F. R. Holmer are in Clinton, spending some time in Beloit. At present they are at Suteraa Heights. They will attend the National Press meeting which is to be held in March in St. Augustine, Fla. Mr. Holmer is editor of the Rock County Banner.

—Noble Grands Elect Officers—Officers for the year were elected yesterday afternoon at the meeting of the Past Noble Grands association of Rockford, which was well attended by members from the two Janesville Rebekah lodges as well as those from Beloit, Orfordville and Evansville. The meeting was held at the home of Mrs. James Slightam, North Bluff street.

New officers are: Mrs. Olive Whaley, president; Mrs. Nellie Ferguson, vice-president; Mrs. Cora Dickison, recording secretary. Plans were made for the annual banquet which will be held the fourth Thursday in October.

Meeting at Jackson School—An enthusiastic meeting of the Parent Teachers' association was held Thursday evening at the Jackson school. Miss Alice Glenn, school nurse, gave an interesting talk before a large attendance. Officers for this association are: Arthur John Viney, president; Miss Elizabeth Lillis, secretary; Mrs. Louis Brummond, treasurer.

Society Organized in Evansville—Mrs. F. J. Turner, 485 Chatham street, district superintendent of the Standard Bearers, went to Evansville Tuesday evening, where a Standard Bearers society was organized. Dinner was served by a committee of the Methodist Missionary society of the Methodist church of that city.

Meeting at Lutheran Church—One hundred and twenty attended the first meeting of the Y. P. S. at the First Lutheran church Thursday evening. A mandolin quartet by the Aker sisters was a feature of the program and other numbers were given solo, Miss Jordith Peterson, recitation, Miss Gertrude McCarthy, piano duet, Misses Carle and John, piano. The Misses Anna Balleen, Anna and Thea, sang. The girls served refreshments. Miss Mary Bakken was appointed on the program committee and the Misses Edna Birkness and Genevieve Jensen and Orrin Johnson and the flower committee by the president, Miss Zillah Heisig.

Celebrates First Birthday—Robert G. Field, Jr., son of Mr. and Mrs. R. G. Field, 141 South Second street, celebrated his first birthday Wednesday. Several of his young friends accompanied by their mothers were invited in from 3 to 5 o'clock in honor of the day. The children came, bringing their dolls and toy cars with them. Refreshments appropriate for the day were served. The little party ended with a dance.

RAILROAD CHIEF ENJOYS VISIT HERE

(Continued from page 1)
roads are confronted with a preferred class of employees whose wages are fixed by a federal board and may not be changed without the consent of that board, which he said came to prospect.

"If it does," in his opinion, "the roads of the United States will get into the condition of those of England. I do not believe the people of this country want to see that condition. There has to be an understanding of the roads, and I think the roads are to be different than what they are."

Tolls of U. S. Control.

"When this country went to war, the government took over the roads," he related, "and our opinion was that if any good came out of it, it would be that our people would get a better understanding of railroad conditions, but they have not got a complete understanding yet."

When the roads were turned

over to the transportation act stated that they should earn a certain income.

That is an amazed beyond belief that many prominent men give the public the belief that the government had declared a definite income.

It declared that rates would be fixed up to 5 1/2 percent determined upon the valuation of the property and taxes.

That is a total of 100.8 percent meaning that it cost

100.8 percent to make \$100.00 and

that we did not make expenses.

We must pay to capital account many wages, salaries, salaries and the road must earn enough money to pay that investment which does not add to the income of the road.

It is remarkable how this item of special assessment has increased.

It cost \$324,865.64 in

1920 for sidewalks and improvements.

The highest for any previous

year was \$125,493.48.

Pay High Rate for Money.

This includes such things as the cost of insurance, wages, salaries, etc. inherently dangerous and the Northwestern has many of them because it goes through many cities.

To pay for them, we must borrow money and fund the debt because we cannot take it from our operating account.

There's where the United States comes in. For not only

must we pay a higher rate of interest, such as 7 and 8 percent, how

are we to get it if we are permitted to earn but 5 1/2 percent?

There is nothing so critical as this condition today. There is necessity for this kind of work and improvements, but they cannot be done because we can't get the money.

Operations are connected from time to time to refund maturing securities at a higher rate of interest, and yet we are not permitted to earn but 5 1/2 percent.

Nation of Individuals.

"One thing that has distinguished this country is that it offers individual opportunity in a great degree more than any other country and no one

can follow any laid-down rules.

It distinguished us as a nation in the World war and the things it accomplished in a short time will amaze the world.

Now, to be a military nation, we might not have been compelled to do what other nations did;

yet everything now in the war was

American. The flying machine,

the submarine, the depth bomb that

preyed the death of the submarine,

the tank in fundamental principle,

the machine gun that the Germans

had stolen from the turning tide.

We were not a military nation.

We were a nation of individuals and

did not have to follow laid-down

rules. Nothing can stay any man's

65 Percent for Wages.

The operating revenues of the

Northwestern for 1920 were \$152,350,846.88 disbursed as follows:

\$5,000,000.00 of general officials

and expenses, 8.4 percent for fuel;

10.4 percent for materials; 8.5 percent for car hire and rentals; and 5.24 percent for taxes.

That is a total of 100.8 percent meaning that it cost

100.8 percent to make \$100.00 and

that we did not make expenses.

We must pay to capital account

many wages, salaries, salaries and

the road must earn enough money to

pay that investment which does not add to the income of the road.

THE GAZETTE'S PLATFORM.

New and better houses. Curbing a rent
protect.

Open roads in the country 365 days a year.

Market price of the average house.

More parks and playgrounds.

Make the city a place of welcome to visitors and new residents and not for their exploitation.

Build the hotel for Janesville in 1921.

Provide entertainment, place and music for the people all the year.

Provide a camp for the auto tourists who come to Janesville.

Continue the paving of Janesville streets until all are completed.

IT WAS A FINE THING TO HAVE THEM HERE.

Much will come of the visit of the president and other officials of the Northwestern railroad to Janesville, and the day spent with the citizens of the city seeing the industrial interests and hearing many things about the hopes and ambitions of the city in relation to transportation.

President Finley in his address to the Chamber of Commerce members and guests, in words carrying the deep message of sincerity behind them, told of some of the troubles that confront the railroads in these days of changing business conditions. But through it all there was no vein of pessimism, no suggestion of anything but hope and to go on doing better and performing more satisfactory service.

America owes what she is as a developed nation to transportation. It is the greatest civilizing agent next to printing. And the lack of public appreciation is often the cause for misunderstanding. Never have the roads of the country needed to be closer to the people, never has there been so great a necessity for a complete understanding of the relation of the roads to the public. That information should not come from the mouths of self-seeking demagogues and political mountebanks who speak for the passing moment and to reach an immediate end, but must be arrived at by the slow process of careful investigation and first hand knowledge. Janesville was fortunate in receiving such knowledge of many phases of the railroad business Thursday from the address of Mr. Finley.

Long years ago, so long in fact that it had been almost forgotten, when Janesville was the center of the staging business for southern Wisconsin, some man had dreamed dreams of railroads networking the nation, and William B. Ogden, president of the Chicago and Northwestern railroad, came to Janesville to speak to the people on the proposed road through the Rock River Valley. In the 82 years that have passed the dream of 1849 has come true.

Next month we are to have the president and his staff of the Chicago, Milwaukee and St. Paul road here. The Chamber of Commerce is accomplishing much in thus spreading the gospel of Janesville, and to the president of the St. Paul they will be given the same attention by Janesville's official host.

JANESEVILLE HAS ALWAYS BEEN ATTRACTIVE.

The central position of Janesville, its immense water powers, its commercial advantages, the agricultural resources of the surrounding country, its situation upon several of the most important railroads at the northwest, are all marked by strangers as well as citizens. The varied and charming scenery about the town, the noble river with its rapid current and clear banks, the beautiful spots for residences and parks, the case with which building materials such as stone, brick, lumber and lime can be obtained, the excellent water which is found by digging, and above all the healthfulness of the place which is proverbial makes Janesville a most desirable place for those seeking a western home."

This was not written yesterday, but 55 years ago. Orin Guernsey, who penned these lines, has been dead many years. But the words written in 1866 are applicable today. We have the river with its rapid current and clear banks—except in a few miles. We have the spots for parks, and before another 65 years elapse will have the parks. It is well to read this voice from the past that still seems so much of the present. In those days there was much wooded land about the city—many beautiful groves. What a system of parks we could have had, how many playgrounds been provided, had the men of 1866 seen more clearly into the tomorrow! But it is not too late. Fifty years from now, when Janesville has trebled in size, parks in locations that seem far out now, will be close to one's door. With the awakening civic spirit this is a time to provide parks. Vision is a great thing, but the making of dreams come true is greater.

WHEN THE WOODCHUCK COMES OUT.

Groundhog day will soon be here and we shall then know whether all these weather prophecies have been spoiling the public or are real, genuine, dyed-in-the-wool seers or merely near ectomists. The woodchuck is a discerning animal and for centuries has been given a deep and abiding faith for his acumen on meteorological matters.

On the second day of each February he has come forth from his home deep in the ground, far from the frost and cold, where he has been curled in a long sleep, and taken a look around the world. Why he comes out on that day, why all his progeny, year after year, should follow the example of the forbears, why he hails the cloud and the darkness of mid-winter and why sunshine and a shadow of his ignoble person should drive him back to reprise for six weeks, no one knows.

We may have deeper and more definite information when some professor writes a thesis on the brain of the woodchuck. However a waiting world will watch with interest for the appearance of the woodchuck on the second day of February.

Italy, torn with riots, tax-ridden and half foodless, calls much louder for food and aid than the champagne-buying, race-matching, jewel-grabbing, junker people in Germany who have just

Some Immigration Facts

By FREDERIC J. GASKIN.

Washington, D. C., Jan. 28.—Anywhere from ten million to twenty-five million people, according to various estimates, are literally standing in line in Europe waiting for a chance to come to America, according to Commissioner of Immigration W. New York.

Mr. Wallis recently gave the Senate Committee on Immigration a succinct and startling account of the immigration situation, of which only a few words have heretofore been published. The gist of his fact are therefore here set forth:

In Denmark he says that people are standing in line by thousands to get on the boats, and that they are camped all about the port of embarkation, waiting their turns. The steamship companies report that they are offered 10 times as much business as they can handle. Most of these immigrants have sold everything they possessed in order to raise enough money to pay for a passage to this country, and to have enough money to be admitted when they arrive. They pay from \$110 to \$160 for a steerage passage to the United States, which is more than a first-class passage cost a few years ago. The immigrant carrying business is said to be very remunerative to the steamship companies.

Many of the immigrants tell of being robbed at the port of embarkation. They are forced to check all of their personal belongings while taking a bath, and afterward they say are unable to recover them, the checks not being honored. There are also tales of women and girls being dragged out of line and robbed.

The result is that when the immigrant arrives in the United States he does not have sufficient money to be admitted to this country, as the law provides that he cannot be admitted if he is likely to become a public charge. On one ship carrying perhaps a thousand immigrants there were several hundred that had less than one dollar each in money. Many of them, from regions infested with typhus, wear clothes so thin that these clothes will not stand the disintegrating process through which they must be put.

Most of these destitute immigrants claim that they expect money here from friends, relatives or societies, and most of them are, in the course of time, rescued by some of their compatriots in this country. But meantime they must be cared for at Ellis Island. The island has no accommodations for such a swarm of people. They are compelled to sleep on the floors, and until recently many of them had to sleep without blankets. There are no adequate toilet facilities or facilities of any other kind.

Furthermore, these almost destitute people land in a country the language of which they cannot speak, and in a city which is already full of unemployed persons, and which has bread lines. There is practically no machinery for placing these people in jobs. Mr. Wallis reported several letters that he had had from the West asking for immigrant labor at good wages. But he has no authority to establish or to act as an employment agency. He believes that the Labor Department is now taking some steps to distribute these immigrant laborers where they are needed, but does not know what funds they have for the purpose. (As a matter of fact, they have practically none.) The United States Employment Service, since the Armistice, has been reduced to a skeleton organization.

Mr. Wallis does not believe that the situation is to be relieved by the passage of a law like the Johnson Bill prohibiting all immigration, with certain exceptions, such as the blood relatives of those already here, for a year. He believes that the exceptions, and the frauds which would naturally grow out of them, would more than fill the boats—that we would get about the same amount of immigration, but that it would consist mostly of women, children, and other dependents. He seems to believe that either all immigration should be stopped, without exceptions, until legislation regulating immigration in a scientific way can be passed; or else immigration should be allowed to run along as it is until such final legislation can be passed.

Mr. Wallis points out the important fact that the amount of immigration which we can receive is limited by the number of persons which the ships can carry. He estimates that the ships now in use can carry 3 million steerage passengers a year and perhaps three hundred thousand in the first and second cabins. It is further brought out in the hearings that 25 to 30 per cent of the Trans-Atlantic passenger traffic is non-immigrant—that is, it consists of people who intend to return to their native countries, or of Americans returning from Europe. In this way it is seen that our immigration is self-limited to less than a million a year, barring what comes in over the Mexican and Canadian borders. Of course, inasmuch as the carrying of immigrant passengers is now a highly remunerative business, it is probable that more ships will be built and put into the business, but the increase in the immigrant stream, which will result from this, will be slow.

The situation, therefore, as Mr. Wallis sees it, is that out of ten million aliens who want to come to the United States in a given year, only one million can come by reason of the limitations of the carriers. He argues that our manifest duty is to choose this million with the utmost care—to see that the 10 per cent of the proffered population which we take is the best 10 per cent and not the worst or middling. He points out that a considerable part of the immigration now coming consists of large, healthy, thrifty types with enough money to take care of them for some time. Others are sickly, under-sized paupers. He argues that legislation should be drafted which will insure that this large, healthy, thrifty type get in and that the sickly paupers be kept out. Since we cannot take them all anyway, why not take the best? Mr. Wallis does not suggest the nature of the regulations by which this selective process might be accomplished; he puts that up to Congress. He does suggest that the present laws are inadequate, especially the literacy test. He points out that a man may be able to read 40 words and yet be a very poor specimen of the human race.

Make your employer's interests your interests and do the best you can," is the Smith motto.

Much of the credit for his success Smith gives to his wife. He married at twenty and is an advocate of early marriage. His wife was Maud Emery of Adrian, Mich. Smith is 55 years old.

Alfred H. Smith finished grammar school in Cleveland. He had to support his widowed mother and his brother. He earned \$1,000 a month, but did not know what funds they have for the purpose. (As a matter of fact, they have practically none.) The United States Employment Service, since the Armistice, has been reduced to a skeleton organization.

JUST FOLKS

By EDGAR A. GUEST.

HAPPINESS.

It's all in what we're striving for, all in what we hope to do. There isn't any happiness that life can bring to me or you.

Just watch the ways o' men an' see the joys they daily pick an' choose. You'll see some frown although they win, an' others smile although they lose.

Some search for joy in hoarded gold, some find it in a modest way.

But real contentment o' the soul in spite of what the cynics say:

An' happiness is of the home—the palace is no happier than

The cottage on the simpler street where peace waits the humbler man.

It's all in what we think we need an' what we feel we must possess.

That makes us failures here on earth or stamps out labor with success:

If we can wait the quiet times an' glory in the friendly trees,

Shall know as many happy days as those who travel over seas.

What difference shall it make at last to me or you if we can say:

In looking back across the miles, that happiness has strewn our way?

The joy of life lies in ourselves—the poor man romping with a child

Is just as rich in happiness as he whose gold in stocks is piled.

A SWEETHEART AT THIRTY

The Story of a Woman's Transformation

BY MARION RUBINCAM

CHAPTER LVI HEARTBREAK

Thoroughly alarmed by Violet's cry, I hurried down the pathetic, ridiculous passage James had cut through the hay to his retreat. I went through the door, and into the dim light he had "smashed it"—what he meant I could not tell. But I saw now, even in the faint light, that the engine had been torn and thrown down, and that tools and wheels and straps and other pieces of all the things James worked with were lying all over the place.

Evidently Jim, perhaps searching for some tool, perhaps even hunting the barn for the hen he concealed her nest, stumbled on this passage. He would wonder, yet, why the hay had not been piled up close to the stone wall, knew him so well. I noted his various reactions. He would be angry at the waste of space. He would crowd in, wondering how much space was wasted. Then seeing the boards overhead that held away the hay and formed the passage, he would suspect something and keep up his investigation.

Then, of course, there was the door—well enough concealed to any but a sharp-eyed person like Vi, or to a man with his suspicions aroused. And of course, he would be hot, choked with dust, and angry when he reached the workshop. To a man with his temper, this was like pouring oil on a smouldering fire. He would find his tools there, suspect James had stolen them, and be convinced that the boy did not and, seizing the first heavy tool, he would demolish the place. And this was exactly what had happened.

I went through trembling. In the dim light I saw Violet bending over a dark figure—and the sound of sobbing. The whole thing was so confused, and I was so upset and nervous

Heart and Home Problems

BY ELIZABETH THOMPSON.

Letters May Be Addressed to Mrs. Thompson, in Care of the Gazette.

Dear Mrs. Thompson: Is it right to write friendly letters to a boy you have never seen? This boy is a long way from home and through an acquaintance of mine he has written me several letters, the first of which I answered. Did I do right or not?

Later I received his picture, etc., and I stopped writing. He has written again asking why I did not answer his letters. What should I do? He is one of Uncle Sam's boys and by his writing he seems to be a very nice, friendly boy. Can you advise me?

PHYLIS DIAMOND. A correspondence such as you mention is not conventional. I think it is harmless, however, if the girl receiving such letters is sensible and judges the character of the young man by the sort of thing he writes. In a sense you were fortunate to be mutual acquaintances.

If you feel sure the young man is worth while as a friend, answer his letters.

Dear Mrs. Thompson: I have a wool and fibre rug which has a number of grease spots on it. How can I remove them?

AN INTERESTED READER. Apply gasoline.

Dear Mrs. Thompson: I have been engaged to a man for two years who is five years my senior. I have always loved and trusted him until now.

Recently I learned he had been keeping company with a young married woman. He told her how much he loved her and wanted her alone with him. She did not care for him and would not leave her husband and finally turned him down.

Since then he wants to marry me. He does not know I know about him. A friend told me I should not marry

him. Dear Mrs. Thompson, I have been to a screen star

Dear Miss Page: I am 20 years old, have dark brown hair, blue eyes and fair complexion. I have long wanted to become a motion picture actress. Would you tell me how I can become one?—B. M. C.

It takes more than dark brown hair and blue eyes to qualify you even for a start. B. M. C. What makes you think you want to be a movie actress? Do you know what very hard work it is? Do you know that nine-tenths of all the beautiful stars and the wonderful, idealized romances of the screen stars is pure imagination? The imagination of some man or woman who is paid so much a week to grind out such stories for publicity?

And am I unlikely to tear away the veil of illusion like this? I hope not. But I think you ought to know that it is very, very difficult. B. M. C., to get into the movies, and far from all happiness once you are in.

Do you know that there are at least 40,000 girls waiting around the English studios now, glad to get one day's work each week as an "extra"? And that means they have about \$7.50 a week to live on and are not sure of that?

If you still think it sounds attractive, you can enter a movie contest, and if you are more beautiful than any other girl who enters and prove to "screen" well (lots of very pretty girls don't "screen" well), you know then you may be offered a real position in the movies. Or you can write to the casting director of all the studios, applying for a place; but you will probably never get an answer, so your stamp will be wasted.

And if you can go to California and hang around the studios waiting for a chance to stand all day as an "extra" with the great lights blinding your back and burning your eyes while you try to attract enough attention, however, to get offered a place to offer a bigger place. But don't forget that you may have to wait so long that all your money will be used up, and you will be a stranger to a strange land, without money or friends or a job.

I am so sure you will be happier staying at home and going to see the movies. B. M. C. Don't you think so?

All inquiries addressed to Miss Page in care of "What Shall I Do?" department in their turn. This requires considerable time, however, and one or the greatest number receives a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the questions. —The Editor.

A miserly father makes an extravagant son.

The girl sought is young, beautiful, probably still single and it is believed may be employed as a clerk, stenographer or may be living with relatives. Every citizen in this vicinity is urged to aid in the search. Full details regarding description, reward, etc., will be published in next Sunday's Chicago Sunday Tribune.

Madge—Jack remarked that I have my father's eyes.

Natalie—Wasn't it nice to call you my father's eyes.

Two cups boiling water, three teaspoons tea. Scald an earthen pop-eyed!—Boston Transcript.

The Letters of Tessie and Joe

DEAR TESSIE:

I suppose you've been reading about the U. S. Navy balloons that got blown over Canada and had to eat their carrier pigeons who thus performed their duty to their government by carrying messages of cheer to the department of the interior. Joke. Anyway, Tessie, I couldn't help wishing that the officers had had a case or so of Daisy Canned Soups along as ballast, and then when the worst came to the worst and there was no other alternative they would have had to take a chance and eat the soup and think what a selling argument that would have made, in case the officers recovered. But don't think I'm knocking my own line. Never hit a can when it's low down, that's my motto.

But about those pigeons, Tessie, I guess it's a lucky thing for the officers that they ate them, because then when they came down and met the Indian guide they were able to talk to him at once in pigeon English. Joke.

Speaking of that star a hundred million times larger than the earth, I'm rather relieved that we weren't born there, Tessie, because with all that territory around it's probable we'd never have met each other, and with all your little peculiarities, Tessie, I still consider it a lucky thing I met you. I mean a lucky thing for both of us, not only for you. As for the brand of luck concerned when I met most of your relations, that's what you might call another story. Especially your cousin Grace. I'm sorry now we ever gave her that pickle dish for a wedding present appropriate as it was.

Give my love to the baby and if he sprangs a tooth on you within the next twenty-four hours send me a telegram, but keep it within ten words. So long and love. JOE.

TWO CHAPEAUX WITH BUT A SINGLE THOUGHT—FLORIDA AND PALM BEACH

china teapot and dry it. Put in tea and pour over it the boiling water. Let it stand in a warm place five minutes before serving.

Coco—One and one-half tablespoons coco, two tablespoons sugar, two cups milk, two cups scalding water. Add sugar and a few grains of salt to coco mix with one-half a cup of boiling water and stir to a smooth paste; add the remaining water and boil one minute. Add scalding milk and beat with an egg-beater to prevent scum forming.

I had an idea for an engine," he went on. "I suppose that got him similar to the ones they are using now—an engine for an auto," he explained. "If my idea worked out all right, there would be less chance for things breaking down. So I set the stuff here and worked evenings—had it fixed so no light could get out except there on the side towards the fields." He pointed to the slits for ventilation, through which some daylight was coming in.

GOX QUESTIONS WILSON ON EUROPE

Ohio Governor Plans to Make Extensive Study of Russia.

By DAVID LAWRENCE.

Washington, Jan. 28.—James M. Cox, Ohio editor of the Dayton News and Springfield News—not defeated candidate for the presidency or politician—dropped in from White House to get some news from President Wilson on the European situation of which he plans a thorough study lasting perhaps a year. Mr. Cox feels that Europe contains the answer to economic improvement in America and that the next generation at least an intimate knowledge of European conditions is essential to an editor and a business man. The president and Mr. Cox talked for nearly an hour. Mr. Wilson gave his editor various suggestions based upon his own study of European affairs and particularly recommended some trustworthy sources of information. Much of the conversation turned upon the future of Russia where it is Mr. Cox's hope that he can make an extensive study and investigation.

MISSION IS PRIVATE.

The former governor wants it understood that the mission is entirely private and he hopes that he will escape the bandit of a dinner which always crowd the calendar of foreign visitors who have been in the public eye. Mr. Cox doesn't look on his trip as a pleasure jaunt but a business investigation. He believed during the campaign that the political and economic fortunes of America were tied up with those of Europe and while the nation's voters didn't agree with him, Mr. Cox is sure that the day will come when the American people will reverse their judgment by electing him. For the same is "off the boards on paper" but by engaging in a closer co-operation with Europe than was promised by the republican candidate in the last campaign for the presidency.

NOT BITTER OVER ELECTION.

Mr. Cox reveals no rancor or bitterness over the election results of 1920 but even in private conversation he hopes for democratic success next time but he makes it plain that he doesn't care to see the democrats win "at the cost of human disaster." In other words while he doesn't think Mr. Harding can make a success on the basis of the plans announced during the campaign, he wants to see success for America's sake and if there is to be a change in parties next time he hopes the verdict of 1924 will not be the consequence of suffering and hard times but the natural change from one political party to another.

'Twas Human Nature.

President Wilson was especially eager to learn from Mr. Cox just how he analyzed the election returns last fall. Mr. Cox pointed out that human nature had been a period of idealism in history which had not been followed by a relapse. Short sugar, short coal, taxes on business, and restrictive measures like the selective service act, all caused a volume of irritations which found expression in the resentment vote on election day. That's Mr. Cox's analysis and he still believes that every American people are in awe of what they escaped by winning the war.

FRUITS OF WAR OVERLOOKED.

The restrictions upon personal freedom and the making of money imposed by the democratic administration were necessary and unavoidable, according to Mr. Cox, and the war could not have been won without them. Nevertheless he thinks the American people didn't take that into consideration but considered only the irritations—not the fruits of the war. Only by a study of what European peoples actually suffered can some idea be gained of what America avoided by winning the war in such a brief space of time. Mr. Cox insists that every American who attempts to discuss American foreign policy ought to go to Europe and get the facts first-hand.

The president always liked Mr. Cox and enjoyed the visit very much.

Mr. Wilson seems to have improved in health since the two-month visit which Mr. Cox paid him just after the San Francisco convention. The president isn't active, however. He likes to rest. He doesn't read a great deal but others read to him. The inference one draws is that the president will continue to improve in health after he leaves the White House in March because he will be relieved of executive burdens and responsibilities.

NOT LIKELY TO WRITE.

It is considered highly likely that the president will write history—or spend any time reviewing what has happened. He is described as full of fight, however, and eager to continue to exercise his influence for the achievement of the ideals uttered by him during the war. The exact manner in which he will attempt to play his part in moulding public opinion something that will be done without affecting his health.

He has a room in the White House but it would not be surprising if Mr. Wilson too some day went to Europe for a visit. There's been no suggestion to that effect from the president himself but his mind is still on the European problem and its terrible effects upon the future of civilization.

BRICK COMPANY PLANS WAREHOUSE

With its production limited in its present quarters, the Janesville Brick Works has secured a permit to build a warehouse and time shed as additions to the plant in the western part of the city, 1725 Pleasant street. The warehouse will be 28 by 6, built at a cost of about \$1,500. The time shed will be a little more than half as large.

P. F. Schumacher contemplates building a double dwelling at 302 Wells street, according to further information at the office of the building inspector, F. J. Blair. A. G. Metzinger has secured a permit for the remodeling now under way at his meat market, 306 West Milwaukee street. He expects to spend about \$1,500 in putting in a new front and laying a tile floor.

William Albrecht, 310 Randall avenue, secured a permit for a chicken coop.

BROWN BROTHERS SELL BELOIT STORE

Brown Brothers, who ran a shoe store here until it was destroyed in the big bridge fire of 1913, will close out their shoe store in Beloit the next few days. Their building has been sold to the S. Krosge company. Besides stores at Beloit and Janesville, the Browns have operated stores in Rockford, Oshkosh and Fond du Lac. Leo Brown will continue to live in Beloit in ready work.

EXPECT 200

Much interest is being taken in the community meeting to be held in the La Grange hall tonight. More than 200 people are expected to attend.

STATE CONVENTION OF Y. M. C. A. FEB. 7

(BY ASSOCIATED PRESS)

Milwaukee.—The annual state Y. M. C. A. convention will be held in Milwaukee February 7 at the Y. M. C. A. building, F. A. Hatchaway, associate state secretary announced. M. G. Neighlen, formerly member of the Federal Reserve board, is chairman of a commission of 33 which will report on the future work of the Y. M. C. A. Other important speakers include J. Stitt Wilson, formerly mayor of Berkeley, Calif.

A. E. Roberts, secretary for county work of the International Y. M. C. A. committee, will speak on "The Country Boy in the New Day." A. G. Kiebel, Chicago, regional secretary of international committee, will speak.

The convention luncheon will be held Monday evening, Feb. 5, at G. Roselius' Appleton, and A. E. Roberts, New York City, will be the principal speakers. Delegates will attend from 14 different city Y. M. C. A.'s and nine county Y. M. C. A.'s in the state as follows: Appleton, 19 delegates; Ashland, 4; Beloit, 7; Eau Claire, 7; Fond du Lac, 6; Janesville, 8; Kaukauna, 3; La Crosse, 5; Lake Geneva, 4; Madison, 7; Milwaukee, 12; Racine, 7; Superior, 6; Wausau, 6; Wausau, 3; 9 county associations, 27; state delegates, 30.

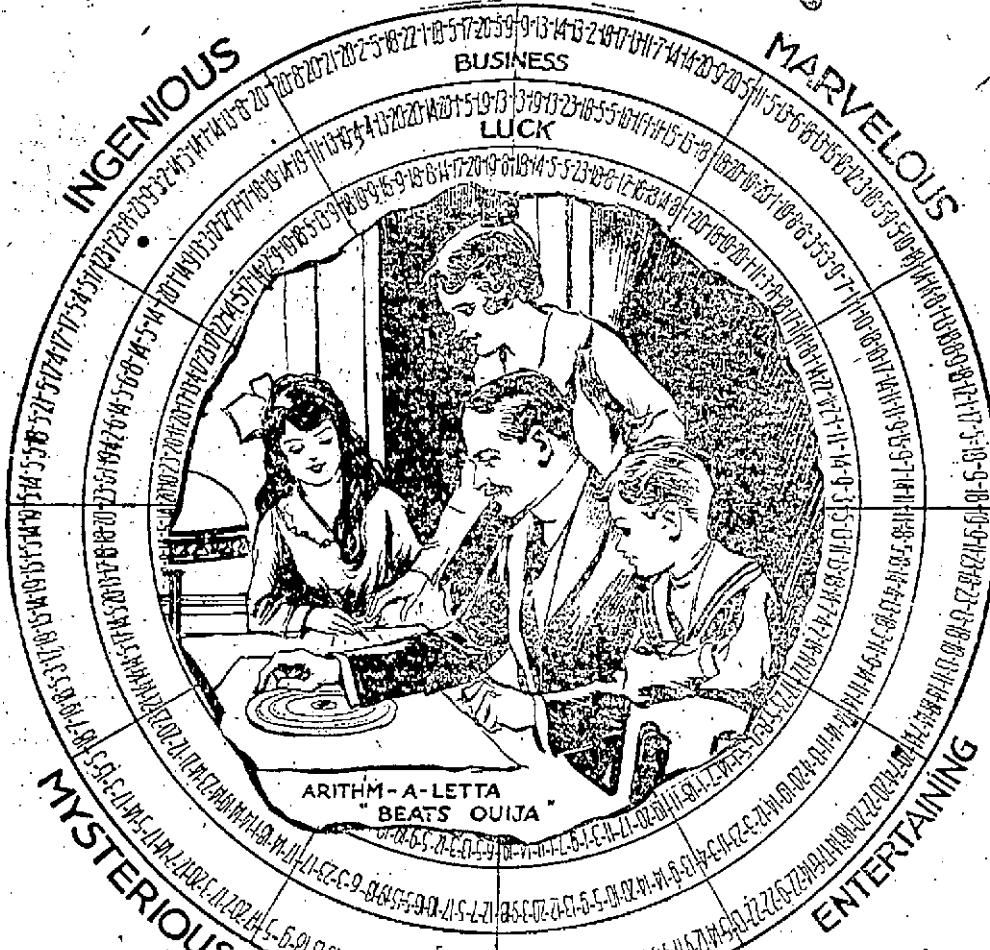

SHOPIERE BOY GIVEN 18 MONTHS SENTENCE

Haen Rice, Shopiere, was sentenced to 18 months in the Green Bay reformatory by Judge John B. Clark in the Beloit municipal court Thursday. He pleaded guilty to the theft of an automobile.

The boy explained the light sentence resulting from Rice's age, 19, and the fact it was his first criminal offense. Rice was brought to Janesville this afternoon and will be taken to Green Bay with Russell Weirick within a few days by Sheriff Cash Whipple or a deputy.

STEVENS POINT.—When burglars broke into the George Happa soft drink establishment here and robbed the cash register of \$45, they overlooked a cigar container standing to the right of the register which held \$6 in all. Two other places were entered. Ten dollars and a quantity of cigarettes were stolen at the W. B. Pott grocery, and 27 cents in pennies at the Peckert meat market.

Janesville, Wis.

From the State Capital

BY ASSOCIATED PRESS
Madison, Wis., Jan. 28.—A shrewd business deal recently netted the state of Wisconsin enough to pay the operating expenses of the state treasurer's office for the next two years, according to a report. Treasurer Henry Johnson has filed with the legislature joint financial committee.

A clerical error cannot nullify official action of the Wisconsin legislature according to expression of Charles McCarthy, director of the legislative library. In commenting on reports that the house rule amendment to the constitution had been made void because of a mistake in recording, McCarthy said the legislature had voted to tax the capacity of the state depositories, and, because of the short time the money would remain on deposit, banks were reluctant to handle the millions involved.

In the emergency the treasurer invested \$4,200,000 in the short term certificates, some of which paid 5½ per cent, some 5½, and the remainder 3½ per cent. The state depository rate is only 2½ per cent. The profit on the deal, over and above the state depository rate, is equivalent to a proposal of Senator Arnold, later amended into the final resolution, was certified.

Citizens who had failed to pay a specified amount of their taxes during the year previous to election, the amount to be determined by the local unit, would not be qualified to vote on the bill, which would be introduced by Assemblyman Henry W. Stokes of Waterloo.

The bill is aimed at non-taxpayers and delinquents who would be unable to vote a heavy burden of taxes on other taxpayers of the locality under present laws.

A joint resolution memorializing congress and the president of the United States to take the initiative for world disarmament and immediate withdrawal of all our military forces from Europe and the Asiatic countries has been favorably received by the floor of the senate committee on state affairs.

Cities, towns, and villages are permitted to bond themselves and incur indebtedness in acquiring and reforesting cut-over land for memorial park purposes under provision of a bill of Senator Moore, requiring that prime-grade woods in Wisconsin be conspicuously labelled as such.

A bill of Senator Moore, requiring that prime-grade woods in Wisconsin be conspicuously labelled as such.

Two minor bills, one authorizing the conservation commission to purchase land in the vicinity of Beloit for park purposes, and another relating to the licensing of optometrists were laid over by the committee.

The state affairs committee under the chairmanship of Senator Roethke has disposed of bills calling for two days that bring held sessions.

The committee on education and public welfare, killed a Czerwinski bill providing a 3 mill tax on the property of the state for payment of bonus to soldiers, who had registered in other states, but who could establish their residence at Wisconsin.

Another Czerwinski plan calling for payment of the educational bonus to soldiers who had received the cash bonus and returned it was laid over by the committee.

Senate introduced a bill, Senator Czerwinski to make Washington's birthday a legal holiday in schools was killed by the committee.

O. E. B. and ex-soldier (the latter enclosing a \$5 bill) and others who do not send their names attached to communications will perhaps be disappointed as they are not printed. Once more it is requested that the Gazette will print no communication not signed by the correct name of the person sending it. It is not desired that the name be printed, it will not be but we must know the person who writes. It is a trifling name is used that is so much the more offensive and the person does not of course contemplate it.

Will print more in the Voice of the People.

Careless driving on the part of a licensed driver would result in withdrawal of the license by the court, which could also impose a fine. Licenses would be renewed yearly.

The proposed Wisconsin law would provide that any person over a specified age, which it was said will likely be set at 16 years, would be required to make application for a license to the county clerk. After he had demonstrated his ability to handle a car, his application would be sent to the

NEWS OF SOUTHERN WISCONSIN

TOWN LINE

BY Gazette Correspondent
Town Line—The members of the German-American club surprised Mr. and Mrs. Otto Smithback a week ago. Oscar was the amusement for the evening. Ray Humphrey and Mrs. Victor Craves received first prizes. Raymond Simpson and Marie Henckson won the consolation prizes. Refreshments were served at midnight. Mrs. Victor Craves entertained the company. Mrs. Johnson entertained the young people at their home on Friday evening. The evening was spent in games and dancing. A lunch was served and a fine time was reported. Mr. and Mrs. William Poland and Mrs. M. Irish, consolation by Otto Smithback and Mrs. John Loeffler. The Community meeting held at the Rock and Beloit school house Friday evening was very well attended. Everyone was expected to contribute something for the program or pay a fine. At center, a few days ago taken in Richard Bellinger and Mrs. William Henckson being the only ones in favor of serving a lunch brought dairy refreshments, then they and passed jokes as their part of the program. Lunch will be served at the meetings in the future which will take place every third week of the month. Mr. and Mrs. William Henckson entertained the following at their home last Sunday: Mr. and Mrs. Henry Nelson, and Mr. and Mrs. Martin Yaeger and children, all of Beloit. Mrs. John Schoeberle who has been very sick with the "flu" for 2 weeks, is reported a little better. Miss Henckson returned to her work at Beloit. Mr. and Mrs. John Loeffler for 20 days as the result of stopping on a rusty nail. Miss Gertrude Gerhardle, of Newark, spent the week end with her sister, Mrs. Victor Craves. Mrs. Eva Larrabee is confined to her bed for the past week, suffering with heart trouble. Burton Strunk has returned from a two weeks vacation at Chicago and Atlanta, Ga. Dick Bohm delivered his tobacco Tuesday.

WOULD FINISH UP PAVING IN SPRING

"We'll Tear Up the Loop If
Rails Aren't Here," City
to Interurban Com-
pany.

Get those new rails laid on Franklin
street this spring or the tracks there
and around the "loop" will be torn
out.

This is the ultimatum sent by the
council to the heads of Rockford & In-
terurban Railway company—W. C.
Sparks, Rockford, general manager,
and Nolan & Dougherty, Janesville,
legal advisors.

Councilmen recall that the only
hit in the 1920 paving program
came when the interurban company
laid out its new rails and
then were anxious to get the hang-over
brick and asphalt work done within
the next few months. George Welsh,
Beloit, who holds the brick contract,
is ready to start work as soon as
weather will permit. He still has to
leave Franklin street, from Pleasant to
West Bluff and Corn Exchange.

The tracks on Wall, North High,
West Bluff and North Franklin streets
has not been used since the Inter-
urban company changed its route into
Janesville from South Franklin over
to South Main street, although the
tracks have been allowed to remain
there. It is hinted that the company
may soon transfer its route back to
the Franklin street. Should this move the
councilmen would prove valuable.

It is believed the council means
business when it says it will tear up
these tracks if the new rails are not
here by spring. The ultimatum is ex-
pected to prove an incentive to inter-
urban officials.

MAYOR NAMES MEN TO HIGHWAY SHOW

Janesville will send four delegates
to the National Good Roads show in
Chicago, Feb. 22, with 11 expenses
paid in accordance with a resolution
passed by the council Monday
night. Mayor Welsh will be one of
the delegates. He has appointed the
following three colleagues to attend:
City Engineer C. V. Kerch, Street
Commissioner Thomas E. McKown, Other
members of the council are invited to
the exhibition.

4TH GRADER PENS
H. C. OF L. CARTOON

The high cost of living has attracted
the attention of Raymond Anderson,
fourth grade student in the
Town Line school. He used the ab-
sorbing problem of the excessive cost
of daily necessities for an excellent
cartoon. In the little paper that is
printed in the school.

"High prices" is depicted atop a
high peak ready to tumble down. On
the other side of the peak is "low
prices" trying vainly to climb up.

In the humor department of the
school paper comes the remark from
the teacher, "Your answers are as clear
as mud."

The student answer is, "Well, if
that is so, my answer must cover the
ground good anyway."

Another student defines a "chafing
dish" as "a frying pan that had got in-
to society."

The writing and preparing of the
school papers is encouraged in the
Rock county school system by Super-
intendent O. D. Antisdel as a means
of giving opportunity to children in
expressing original ideas.

Bake Sale Saturday, 10:00 a. m.
Nichols Store.

CHINESE FUND NOW TOTALS NEAR \$100

The Chinese relief fund neared the
\$100 mark today with \$10 sub-
scriptions from Amos Rehberg and
William C. Antisdel, from "A
Friend," City Clerk Sartell reports
the fund now totals \$96.

From the president of the U. S.
Chamber of Commerce, Mr. Sartell
has received this statement:

"Details of the suffering and
death in China stagger the imagination.
It is said people no longer
can find grass or roots to eat.
They are forced to eat the roots leading out
of the famine-stricken areas, with
those who have fallen exhausted.
Once prosperous farmers are killing
their children and themselves to end
suffering."

"On the heels of famine, cholera
is raging."

FEB. 7 DATE SET FOR CANARY TRIAL

A jury of either 6 or 12 men will
be called in municipal court here on
February 7 to hear testimony and
give a verdict in the case against
William Canary, Rockville hotel owner,
who was charged with violating the
prohibition laws by storing alcoholic
beverages in a soft drink establishment.
At the preliminary examination
it was found Canary sold cider
which was later found to test 3 and
4 percent alcohol.

QUESTIONNAIRE ON HOUSING PLANNED

First work in the preparing of a
questionnaire for conducting a survey
of housing conditions in this city was
undertaken by the special Chamber
of Commerce committee at the Cham-
ber Wednesday afternoon. The question-
naire was partially made up.
Further work upon it will be done by
O. Holman, manager of the Cham-
ber, and then presented to the
committee for approval and planning for
the actual survey to be made.

CRANE'S GRANDSON ATTACKS YOUNG GIRL

Chapel, Jan. 28.—Herbert Prentiss
Crane, 30, grandson of the late Rich-
ard T. Crane, millionaire Chicago steel
manufacturer, was held to answer
on charges of an attempted at-
tack upon 13 year old Louise Sturm in
Lincoln Park Wednesday evening.

Bachelors of Paris Pay Bonuses on Babies

Paris—Bachelors of Paris are to
be taxed to pay bonuses to babies.
The General Council of the Seine had
decided that mothers giving birth to
a third child shall receive 50 francs
400 francs for the fourth child and
450 for all children beyond the
fourth. This system will apply in il-
ligitimate as well as to legitimate
children.

LEGION READY TO HELP "BUDDIES" WITH FREE MEALS

The Janesville post of the Ameri-
can Legion is ready to extend a
service and to give meals or
jobs or job or to families of service
men, it was today announced by
Dr. Leigh J. Woodworth, commander
of the post here.

Headquarters for the legion relief
post had been established on West
Milwaukee street in the Grand Hotel
block. Clothes, food and money are
wanted by the Legion to further
the cause of the men.

"We are fully organized and will
do the utmost for the service men,"
said Dr. Woodworth today.
"We want the soldier, navy man or
marine to come in and tell us his
troubles, just like a buddy. We'll
help him to the limit."

Hot meals will be served from 11
o'clock until 1 in the afternoon in the
Y. M. C. A. This is to assure end-
less service to the finds of the Legion
during the day, said Mr. Wood-
worth.

Contributions of clothes, money or
food should be left at the legion
headquarters. Farmers are urged
to bring in food which will then be
distributed. Money contributions, it
was stated, should be left with Harry
Ross, printing shop, Robert Conway,
the First National bank, or at the
legion headquarters.

BLAINE TO TALK TO CLOTHING MEN

Several Janesville members of the
Wisconsin Retail Clothiers' association
are planning to attend the annual
convention which will be held at Mil-
waukee Feb. 5-9-10.

The chief speaker of the convention
will be Gov. J. J. Blaine who will talk
on "Wisconsin Business" and Frank
Carron, secretary of the Wisconsin
Good Roads association.

JOY! PING PONG BALLS ARE HERE

A. C. Preston, boys' work director
at the Y. M. C. A., received word yes-
terday that a special shipment of ping
pong balls sent from Europe had been
forwarded to the Janesville Y. M. C. A.
A scarcity of balls has been prevalent
at the "Y."

SPORTS

CANADIANS DISCUSS TAKING BIG BOUT

New York, Jan. 28.—The proposal
to hold the Dempsey-Carpenter
world's heavyweight championship
bout in Montreal was discussed here
today between Tom Rehberg and two
Canadian promoters, C. F. Graham
and F. D. Goodspeed, members of a
Dominion syndicate.

Rehberg said he had been requested
by the Canadians to consider their
proposal confidential and had no ob-
jection whether he would divulge the
development of the conference.

Wm. A. Brady, who with Charles E.
Cochran, recently withdrew from
the boxing ring, was present at the
meeting and talked of his desire to
have a bout.

Contributions of clothes, money or
food should be left at the legion
headquarters. Farmers are urged
to bring in food which will then be
distributed. Money contributions, it
was stated, should be left with Harry
Ross, printing shop, Robert Conway,
the First National bank, or at the
legion headquarters.

SLIM SALLEE JOINS NEW YORK NATIONALS

New York, Jan. 28.—"Slim" Sallee,
veteran pitcher with 13 years of
service in the National league, has
signed a contract with the New York
Giants.

In 1919 after he threatened to
leave the game forever unless
he could be guaranteed a \$10,000
a month, he signed with the Giants.

He was with the Giants last year
and along with pitcher Bill Braden
was sent to the Pads. Sallee came back
to the Giants last fall by the waiver
route.

WESTERN FOOTBALL LEAGUE IS PLANNED

Omaha, Neb.—Negotiations for
the formation of a western league of
professional football teams are un-
der way here. Present plans are to
have teams from Omaha, Kansas
Des Moines, Davenport, Ia., Rock
Island, Ill., and possibly St. Louis, in
the proposed association.

NAMED PRESIDENT OF BOXING BODY

SPORTS CONTINUED FROM PAGE 10

SPEAKER TO RETAIN '20 TRAINING SCHEME

Cleveland.—Tom Rehberg, manager
of the Cleveland Americans, is so

satisfied with the training system of
last season that he will continue it
when the team reaches Dallas early
in March. One workout a day instead
of two, as many of the other big
league squads have, will be all
the practice the champions will get.

They will turn out between 10 and
11 o'clock each morning and work
until about 1 p. m.

"That amount of practice had
them just right at the start of last
season, so why run the risk of getting
them stale in the six weeks or
more that they're conditioned for
the opening of the season?" Rehberg
said.

Rehberg also intends to switch his
left-handed and right-handed bats-
men according to the opposing pitch-
ers. If this arrangement fails to
produce results, Rehberg declares he
will change it. At the end of last
season Jimmie Leon played left field
when a right-handed pitcher worked
for the opposition. Smith, right field
and Johnson first base, but when a
left-hander was on the mound against them, they were replaced by
Evans, Wood and Burns, respectively.

STUDENTS PROTEST DOBIE FOR OREGON

Eugene, Ore., Jan. 28.—As a result
of the action of the athletic council
of the University of Oregon, offering
Gilmour Dobie, Cornell university
coach, the position of coach of the
football team, the members of the
football team circulated a petition to
return "Shy" Huntington as coach for another year.

MARIETTA WILL PLAY CENTER NEXT SEASON

Marietta, O.—Marietta college will
meet Centre college on the gridiron
next season, according to an announce-
ment made by Athletic Director Kel-
lison of the local college. Marietta
played Boston college at Boston last
season. Director Kellison said the
contest probably will be played at
Cincinnati.

We guarantee that the prices quoted during this sale will positively be the lowest
price we will sell at this season—and we further guarantee that the prices listed
will be less than we shall have to ask for the same quality merchandise during the
coming Spring season.

AMOS REHBERG CO.

Mary Marie By Eleanor H. Porter

Printed by permission of, and special arrangement with Houghton Mifflin Company. Copyright 1920, by Eleanor H. Porter. All rights reserved. (Continued from yesterday.)

I didn't know but after I supper he spoke to me and ask me to come to the library. I hoped he would. There were lots more pictures I like to have seen to him but he didn't. He never said a word. He just kept scowling, and got up from the table and went off by himself. But he didn't go out to the observatory, as he most generally does. He went into library and shut the door.

He was there when the telephone message came at eight o'clock. And what do you think? He'd forgotten what was going to speak to him. He'd forgotten him. On that evening, "Yesterday" was his old story for once. I don't know why. I did think, for a minute, it was 'cause of me—what I'd told him. But I knew, of course, right away that it couldn't be that. He'd never forgot his stars for me! Probably he was just reading up some other stars, or had forgotten how late it was, or something. That's always a very forgetful time—but, anyway, when Aunt Jane called he got his hat and hurried off without so much as one word to me, who was standing near, or to Aunt Jane, who was following him all through the hall, and telling him in her most I'm-amazed-at-you voice that he was getting to be.

One week later. Father's been awfully queer this whole week through. I can't make him out at all. Sometimes I think he's glad I told him all those things in the parlor that day. I dressed up in Marie's things, and sometimes I think he's sorry and wished I hadn't.

The very next morning he came down to breakfast with a funny look on his face. He said good-morning to me three times, and all through breakfast he kept looking over at me with a kind of scowl and was not cross at all—just puzzled.

After breakfast he didn't go out to the observatory, not even to the library. He fidgeted around the dining room, until Aunt Jane went out into the kitchen to give her orders to Suse; then he burst out, all of a sudden.

"Well, Mary, what shall we do today?" Just like that, he said it, as if we'd been doing things together every day of our lives.

"D—d—d!" I asked; and I know I showed how surprised I was by the way I stammered and flushed up.

"Certainly, do," he answered, impatient and scowling. "What shall we do?"

"Why, Father, I—I don't know," I stammered again.

"Come on, of course you know!" he cried. "You know what you want to do, don't you?"

I shook my head. I was so astonished I couldn't even think. And when you can't think you certainly can't talk.

"Nonsense, Mary," scowled Father again. "Of course you know what you want to do! What are you in the habit of doing with your young friends, your Charles and Charles, and so on?"

I guess I just stood and stared and didn't say anything; for after a minute he cried: "Well—well—well?"

"Why, we—we walk—and talk—and play games," I began; but right away he interrupted.

"Good! Very well, then, we'll walk. I am not Cary or Charlie, but I believe I can walk and talk—and play games. Who knows? Come, get your hat."

I got my hat and we went.

But what a funny, funny walk that was! He meant to make it a good one; I know he did. And he tried. He tried real hard. But he walked so fast I couldn't keep up with him; then, when he saw me was hurrying, he slowed down again, and looked so surprised—all held for a minute, striding off again, "way ahead of me."

We went up on the hill through the Benton woods, and it was perfectly lovely up there. He didn't say much at first. Then, all of a sudden, he began to talk about anything and everything. And he knew, by the way he did it, that he'd just happened to me. He'd not got to talk.

As how he talked. Not here where I warmly clad (and here it is August), and did I have a good breakfast, and how old was I, and did I enjoy my studies—which shows how little he was really thinking what he was saying. He knows school closed ages ago. Wasn't he teaching me himself the last of it, too? All around us were doors and windows and, say, many, many other things. But he never said a word about them. He just talked—because he'd got to talk. I know it, and it made me laugh inside, though all the while it made me sort of want to cry, too. Funny, wasn't it?

After a time he didn't talk any more, but just walked on and on; and by and by we came home.

Of course, it wasn't really jolly—that walk wasn't; and I guess Father didn't think it was either. Anyway, he hasn't asked me to go again this week, and he looked tired and worn.

Dinner Stories

"Can't Fool Me Now," He Says

Waters Found in Kozak Real Reict After Others Failed

Several times daily we hear this story. I doubt whether Kozak will receive my case—everything else has failed to cure my troubles". Said the Kozak Man at People's Drug store. "But in almost every instance, they soon agree with the multitudes of men and women, who have found that Kozak quickly masters stomach kidney, and Catarrhal ills, when all else has failed, just as L. M. Waters, 450 Elkhorn Ave., Appleton, Wis., did." He says "Yes, I was skeptical at first. I tried so many different treatments and medicines that I had about lost faith. I read so much about Kozak, I finally decided to try it. I'm sure glad I did because I hadn't been taking a bottle before I acquired a keen appetite, my nerves settled down, and I began to sleep better. Today I feel like a new man! I'm gaining back my lost weight and feel stronger and more energetic. I certainly can recommend Kozak now." Sold exclusively at People's Drug Co., Evansville at Pioneer Co.; Edgerton, Atwell Co., Shattuck's Pharmacy at Clinton, and F. H. Forsyth's, Sharon.

Wittie Willis—We had a "dandy" meeting of our debating society last night.

Grandpa Willis—What was the topic? "Resolved, that Washington was a greater man than Lincoln?" Wittie Willis—Naw. It was "Which is worse, the postal service or the telephone service?"

New stock of Prayer Books, Rosary Beads and other religious articles at St. Joseph's Convent.

SCHOOL STUDY SPORTS

BILLY WHISKERS

BY FRANCES TREGO MONTGOMERY

Though Billy perched on the edge of the others were, not even the fat plant's back, was greatly confused and didn't yet know where he was or what had really happened, his first thought, when he saw the Treats, was that he must get out of sight quick or that he would be a soner. He looked about and saw that he was not far from the platform where all the freaks were, and that if the freaks were, and that if the only place he could jump up and have a good time, was on top of some of the people!

"It's the biggest jump I've ever tried, but I've got to do it now and trust to luck. If I once get to that platform, I can scold to the other side of it, drop down behind and hide till all the hubbub blows over. Here goes!"

With that he suddenly pulled himself together in a sort of bunch and shot straight out into the air over the heads of a lot of astonished people.

"I'll slip in here and wait till things quiet down a bit," thought Billy. "If I try to get out now the whole crowd will be after me. Where there is so much excitement and many things to see, a little commotion like this doesn't last long."

(Tomorrow: Billy almost decides to help the fat lady.)

JUNIOR HOLSTEIN COW MAKES GOOD RECORD

Green Bay.—Lady Platje Penning Ormsby, a junior three year old Holstein owned by Harvey Hallett, Outagamie county, produced 20 1/2 pounds of butter fat in a seven day test completed last week. The test was conducted by Raymond Peterman, a breeder of Holsteins. The best record for a Holstein in Brown county is said to have been 27 pounds of butter fat. Several tests are being held.

Catarrh Will Go

Help Comes in Two Minutes—Complete Relief in a Few Weeks.

Don't go on hawking yourself sick every morning; it's cruel and harmful.

Breathin' Hyomei is a very pleasant and certain way to kill catarrh germs.

It's inexpensive.

MI-ONA Ends Indigestion

It relieves stomach acidity, sour stomach, belching and all stomach diseases. It all druggists in all towns.

INDOOR MAGIC

"Gels-It" Tickles Corns to Death

First Stops All Pain—Then Peels the Corn On.

Don't try to fox trot on corn tortured feet. Get rid of your corns. If

you have never seen a corn tickled to death, just apply a few drops of Gels-It to your feet. Then wear your socks, especially if you had had a hard day.

Soon it is nothing but a loose piece of dead skin that you can right on with your fingers.

Gels-It costs but a trifling sum.

Nothing at all if it fails. Mfg. by Lawrence & Co., Chicago.

Make Your Feet Happy! Remove Those Corns With "Gels-It".
